

## Fund objectives, policy and target market

The investment objective of the Smaller Companies Fund is to grow the real value of investors' capital and income. Investments will primarily be in global smaller companies, which do not form part of the leading market indices. An equal emphasis will be placed on the generation of income and on capital growth.

The fund holds a portfolio of direct investments in a diversified range of international equities. The fund may invest in any geographical area and any economic sector. In accordance with the firm's ethical principles, the fund has no investments in tobacco companies or companies directly involved in the development of arms.

Whilst the fund is suitable for mass market distribution it is not suitable for investors who require full capital protection. Investors should have a medium to long-term investment horizon (3-5 years) and accept that the value of their investment will fluctuate. The fund will however allow ready access to the investment.

## Fund allocations

### Target asset allocation

### Target geographic allocation

**Note:** Target portfolio allocations as at 31st December 2018. Actual allocations may vary.

## Fund holdings

| Equities Top 10           | %            |

## A Word of Caution

You should remember that the price of units and the income from them may go down as well as up. Gains are not necessarily achieved in the short term. Exchange rate fluctuations may also cause the value of an investment to rise and fall. More information about risk may be found in the full Prospectus under "Risk Warnings".

This sheet should be read in conjunction with the relevant Key Investor Information Document.

Unless otherwise stated, all information in this factsheet is supplied by McInroy & Wood as at 31st December 2018.
